ESSENTIAL
WALLPAPER
COLLECTION
2023

*Essenziale, come il suo nome.
Materica, tridimensionale,
elegantissima.
Da toccare con gli occhi e
ascoltare con le mani.*

*Essential Wallpaper Collection
è un universo di astrattismi e
geometrie viniliche che
esaltano il potere sensoriale di
incisioni, intarsi, goffrature.
Trame in 3D, progressioni in
bassorilievo, texture ispirate
alla natura o a sapienti
tradizioni giapponesi si
evolvono in superfici verticali
scolpite, che aprono orizzonti
inesplorati alla decorazione di
interni.*

*Le visioni dei designer si
materializzano nel saper fare di
artigiani maestri della stampa,
della stuccatura, dell'incisione
a mano. Sottili cromie ton sur
ton e nuance iridescenti si
accompagnano allo splendore
dei metalli e all'assolutismo dei
bianchi e dei neri.*

*La sottrazione aggiunge.
Dettagli minimi si amplificano
all'infinito. Dalle profondità dei
rilievi esce la luce. Less is
more, anche sui muri.*

*Essential, like its name.
Textured, three-dimensional,
elegant.
To be touched by the eyes and
listened to by the hands.*

*Essential Wallpaper Collection is
a universe of abstractions and
vinyl geometries that enhance
the sensorial power of
engravings, inlays and
embossing. 3D textures, bas-
relief progressions and textures
inspired by nature or skilful
Japanese traditions evolve into
sculpted vertical surfaces that
open up unexplored horizons for
interior decoration.*

*The designers' visions
materialise in the know-how of
craftsmen who are masters of
printing, plastering and hand
engraving. Sober tone on tone
and iridescent nuances are
accompanied by the splendour of
metals and the absolutism of
whites and blacks.*

*Subtraction adds.
Minimal details are amplified to
infinity.
Light emerges from the depths of
reliefs.
Less is more, even on walls.*

EWC TWENTYTWENTYTHREE

Le saline di Cervia, l'antico origami, i gufi dagli occhi luminosi: arte e natura definiscono le nuove ispirazioni. Vuoti e pieni, solchi e incisioni, geometrie primordiali restituiscono la potenza espressiva di un paesaggio del cuore, di un animale misterioso, di una tradizione antica.

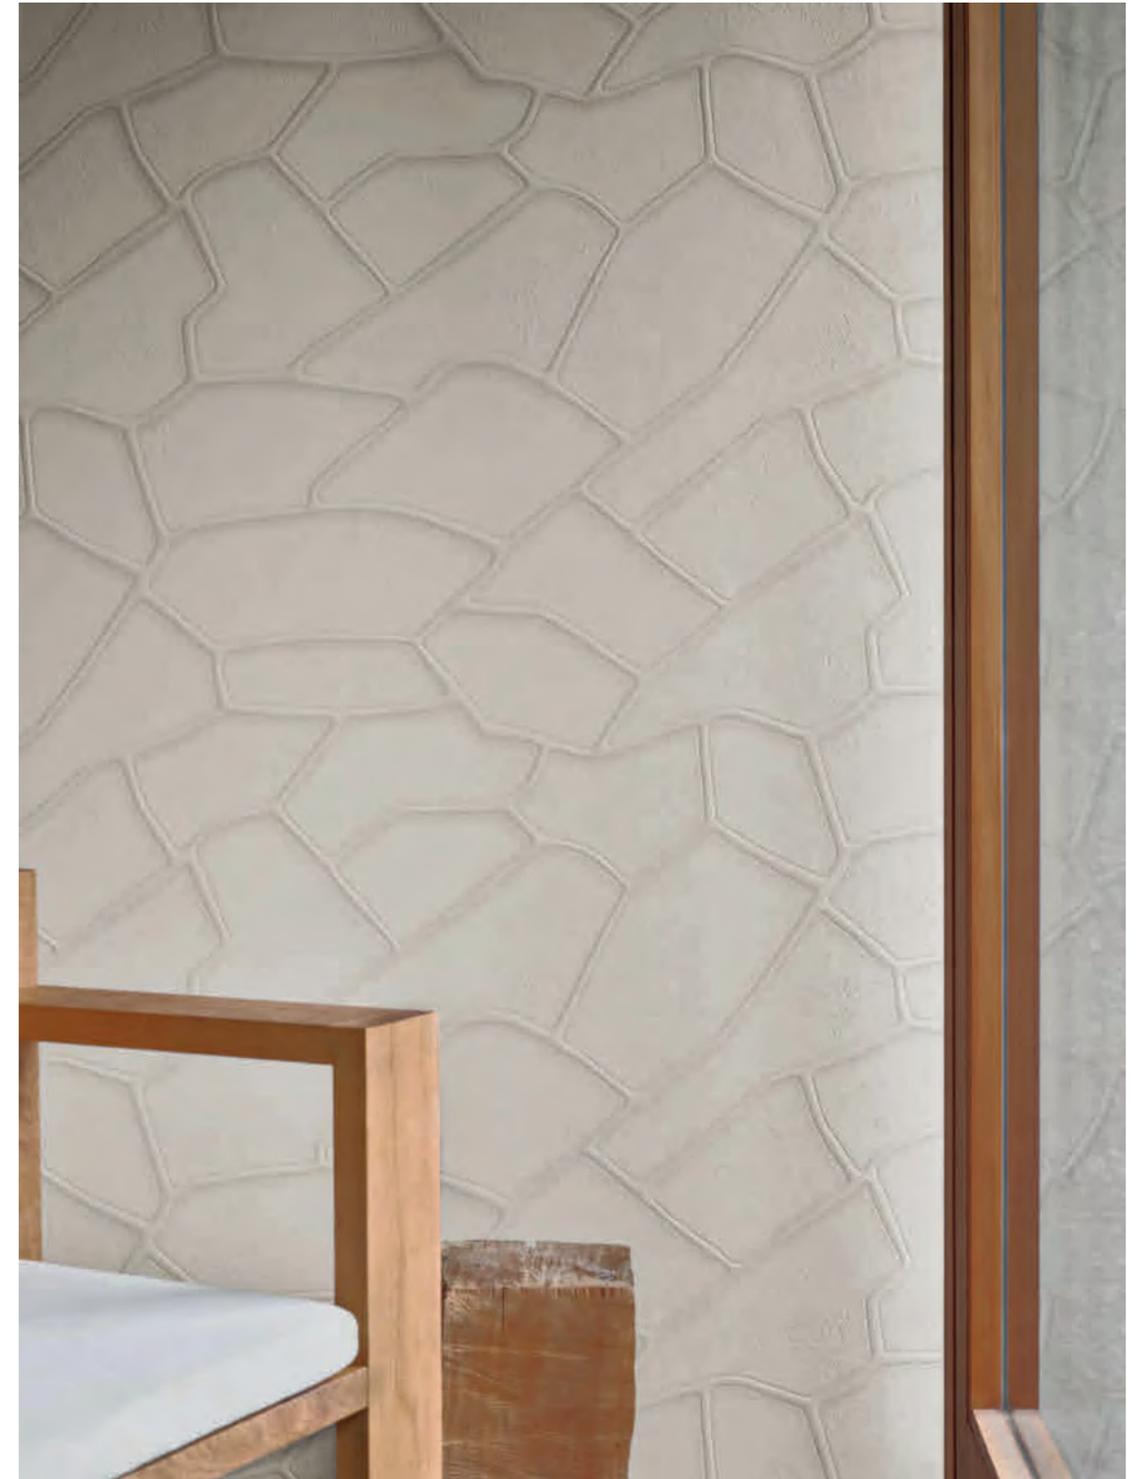

The salt pans of Cervia, ancient origami, bright-eyed owls: art and nature outline new inspirations. Voids and solids, furrows and incisions, primordial geometries restore the expressive power of a landscape of the heart, of a mysterious animal, of an ancient tradition.

COLLECTION

Archetipi geometrici, riferimenti deco e rivisitazioni di colte tradizioni nipponiche si impreziosiscono di cangianze metalliche e sofisticate. La luce scivola dentro gli intarsi e sui rilievi, percorrendo la materia con tridimensionalità e chiaroscuri sempre nuovi.

Geometric archetypes, deco references and reinterpretations of cultured Japanese traditions are embellished with metallic and sophisticated iridescence. Light slips into the inlays and onto the reliefs, running through the material with ever new three-dimensionality and chiaroscuro effects.

COLLECTION

È l'inizio dell'indagine, sulla tridimensionalità e sui micro-segni, mai vista prima nel mondo delle carte da parati. Nascono i pattern su supporto vinilico, che vestono i muri con incisioni astratte, texture materiche, sbecature d'oro. È l'incipit, prima essenza di Essential.

For Wall&decò it is the start of an investigation into three-dimensionality and micro-signs, a search inspired by minimalism as an absolute value. Patterns on vinyl arise, embellishing walls with abstract engravings, material textures, and gold embossing. This is the incipit, the primary essence of Essential.

STUDIOPEPE

Studiopepe è una design agency fondata a Milano nel 2006 da Arianna Lelli Mami e Chiara Di Pinto.

Studiopepe si concentra sulla progettazione e ricerca con un approccio multidisciplinare: si occupa di design (interior, product e limited edition) e di consulenza creativa (trend book, color concept, styling project).

Studiopepe sviluppa concept creativi per brand di moda e design, progetta interni per privati e retail, collezioni di prodotti sia per aziende che per gallerie d'arte e design.

Il linguaggio progettuale è stratificato ed eclettico. Unisce visione poetica e rigore progettuale.

Arte, installazioni, studio degli archetipi formali, sperimentazione sulla materia e dialogo fra opposti sono alcuni dei temi sviluppati dallo Studio.

I progetti di Studiopepe sono riconosciuti per la loro forte identità iconografica, basata sulla sperimentazione, sulla costante ricerca su colore e materiali e sulla contaminazione tra i diversi linguaggi del contemporaneo al fine di perseguire un risultato speciale che rispetti l'individualità di ogni cliente.

Nato a Hong Kong e con un percorso di studi in Inghilterra dall'età di 14 anni, André Fu consegue un Bachelor of Arts e un Master in Architettura entrambi presso l'Università di Cambridge.

"Vivere e viaggiare tra i due paesi è il motivo per cui la mia sensibilità reinterpreta in un nuovo ibrido le nozioni tradizionali di identità nazionale o estetica "East meets West". Si tratta di combinare un perfetto allineamento tra sensibilità culturali e di design, lusso moderno e artigianato per dare forma al mondo che ci circonda" dichiara il designer.

Fu diventa noto da un giorno all'altro quando ridefinisce le nozioni di ospitalità con il progetto Upper House Hotel di Hong Kong, e da allora continua a creare interni all'avanguardia per altri marchi leader.

"Ogni nuovo incarico inizia con la comprensione del mio cliente, del marchio, e della vision. I miei tocchi distintivi possono essere presenti, ma per me è molto importante che il design racconti una storia sul marchio".

I progetti di solito iniziano con gli schizzi concettuali disegnati a mano da Fu, dando forma a una sensuale fusione di forma e materialità, prima di passare a una fase di progettazione dettagliata. La stessa attenzione personale ai dettagli durante tutto il processo di progettazione caratterizza anche i mobili su misura, i prodotti e l'illuminazione.

Studiopepe is a design agency founded in Milan, in 2006, by Arianna Lelli Mami and Chiara Di Pinto.

Studiopepe's focus is on design and research through the use of a multidisciplinary approach: this includes interior design (retail, hotels, private commissions), product design and creative consulting.

The language they use for their designs is stratified and eclectic, uniting poetic vision and rigorous design.

Art, installations, study of formal archetypes, experiments with materials and the dialogue between opposites are some of the themes developed by the Studio.

Studiopepe's projects are recognizable by their strong iconographic identity, based upon experimenting, continuous research on colours and materials and the contamination between the various contemporary languages with the intent to provide a solution that is uniquely special and respectful of each client's individuality.

Born in Hong Kong and educated in England from the age of 14, André Fu holds a Bachelor of Arts at Cambridge University, and a Masters in Architecture from the University of Cambridge.

According to the designer, "living and travelling between both countries over the past thirty years is why my own tastemaker sensibility reinterprets traditional notions of national identities or 'East-meets-West aesthetics' in a new hybrid. For me, it is about combining a seamless alignment of cultural and design sensibilities, modern luxury, and craftsmanship to shape the world around us."

Fu became known overnight when he first redefined notions of hospitality with his design of Upper House hotel in Hong Kong, and has since gone on to create forward-thinking interiors for other leading brands.

"Each new commission starts with understanding my client, the brand, and their specific vision. My signature touches may be there but it is very important to me that the design is about telling a story about the brand."

Designs usually begin with Fu's hand-drawn conceptual sketches, shaping a sensuous fusion of form and materiality, before proceeding to a detailed design stage. The same personal attention to detail throughout the design process has also featured in his custom-design furniture, lighting, and products.

CHRISTIAN BENINI

Christian Benini inizia la sua carriera come fotografo ritrattista e si specializza poi nella fotografia di moda e pubblicitaria.

Le sue collaborazioni lo portano ad avvicinarsi alle agenzie di pubblicità e case di moda in Italia, Regno Unito e Stati Uniti.

Negli anni il suo interesse si indirizza in modo sempre più preciso verso la fotografia d'arredamento.

Nel 2005 l'intuizione è che lo porta a creare Wall&decò: nel riprodurre un'immagine da utilizzare come fondale per un set fotografico, ne percepisce l'alto valore decorativo e le possibili declinazioni nel mondo dell'arredo.

Da qui prende avvio una collezione di carte da parati contemporanee per interni, poi ampliata anche agli esterni e agli ambienti umidi, che ridefinisce gli stilemi della decorazione murale proponendo come alternativa ai pattern e alle geometrie ingrandimenti e macro-immagini.

Nel 2017 il percorso di ricerca si amplia ulteriormente con Essential Wallpaper Collection, la collezione dedicata ad interpretare il valore decorativo delle texture.

Un mondo alternativo rispetto ai grandi disegni narrativi, fatto di trame in 3d, intarsi, incisioni e dettagli di luce in metallo che creano dei veri e propri bassorilievi - nascono superfici da esplorare con le mani oltre che da vedere.

Christian Benini began his career as a portrait photographer and then went on to specialise in fashion and publicity photography.

He has worked in close conjunction with advertising agencies and fashion houses in Italy, the UK and the USA.

Over the years his has honed a precise interest in photography of interiors.

In 2005 his intuition inspired him to create Wall&decò: upon reproducing an image for use as a backdrop on a photography set, he perceived its remarkable decorative value, versatility and potential for use in the furnishing world.

This marked the start of a contemporary wallpaper collection for interiors which was then extended to embrace outdoor areas and damp indoor environments, redefining the stylistic elements of wall decorations by proposing blow-ups and macro-images as alternatives to patterns and geometries.

This research path was broadened even further in 2017 with the Essential Wallpaper Collection, dedicated to interpreting the sheer decorative value of textures.

An alternative world compared to large narrative designs, featuring 3D patterns, inlays, carvings and metal light details which create veritable bas-reliefs. The genesis of surfaces just waiting to be explored by hand and not just with the eyes.

ZANELLATO /BORTOTTO

Nel 2013 Giorgia Zanellato e Daniele Bortotto hanno fondato a Treviso lo studio Zanellato/Bortotto.

Lo stesso anno hanno presentato al Salone Satellite di Milano il loro primo progetto, ovvero la collezione "Acqua Alta", che rende omaggio a Venezia. Questo evento ha segnato l'inizio della loro ricerca pluriennale e costante incentrata sulla relazione tra i luoghi e lo scorrere del tempo, un collegamento che analizzano tramite la reinterpretazione di tecniche artigianali tradizionali.

Tra le attività dello studio figurano design di prodotto, edizioni limitate per gallerie, direzione artistica e progetti di interior design. Lo studio collabora con aziende italiane e internazionali e i suoi lavori sono stati esposti presso numerose gallerie e istituzioni, tra cui il MAXXI di Roma, la Triennale di Milano, il Museo Poldi Pezzoli di Milano, la Somerset House e l'Aram Gallery di Londra.

Nel 2015 Elle Décor Italy ha nominato i due professionisti Young Talent of the Year e nel 2016 sono stati insigniti del premio NYXXDESIGN dalla rivista americana Interior Design e del Red Rot Design Award per il loro progetto "Storie per Cedit". Nel 2018 hanno ricevuto un Good Design Award per la sedia Bix progettata per B-line.

In 2013 Giorgia Zanellato and Daniele Bortotto founded the Zanellato/Bortotto studio, based in Treviso.

In the same year, they presented their first project at the Salone Satellite in Milan. The collection, going by the name of "Acqua Alta", pays homage to Venice. This moment marked the beginning of their longstanding, constant research into the relationship between places and the passing of time, a connection analysed through the reinterpretation of traditional artisanal techniques.

The studio's works include product design, limited editions for galleries, art direction and interior design projects. The studio collaborates with Italian and international companies. Its works have been displayed in several galleries and institutions such as Rome's MAXXI, the Triennale Design Museum, the Poldi Pezzoli Museum in Milan, the Somerset House, and The Aram Gallery in London.

In 2015, they have been nominated by Elle Décor Italy as Young Talent of the Year. In 2016 they have been awarded the NYXXDESIGN prize for the American magazine Interior Design, as well as a Red Rot Design Award for their project "Storie per Cedit". In 2018 they have been conferred a Good Design Award for Bix chair for B-line.
