Spool

Design: MissoniHome Studio

Tavolino

Struttura interna
scocca interna in PE realizzata con tecnologia rotazionale

Rivestimento
fili arrotolati attorno alla scocca come nei tradizionali procedimenti di subbiatura in modo da formare righe molto grafiche e effetti sfumati
il grande "rocchetto" viene poi sottoposto a resinatura che, pur preservando le originali percezioni tattili e visive, rende la superficie dei fili più omogenea e compatta, facilitando la manutenzione

Piano d'appoggio
legno verniciato e lucidato

Sidetable

Internal structure
internal polyethylene frame made using rotational technology

Finish
highly graphic lines or degrade effects are wound around the table the threads of the spool are then treated with a resin finish to give the surface a uniform aspect, making cleaning easier, while keeping the original touch and appearance

Top
made of wood with high gloss finish

Design: Cristiano Magnoni

Poltrona e Divano

Seduta
sedile con supporto in legno realizzato in gommapiuma con inserto centrale in quota differenziata per aumentare il comfort

Schienale
struttura in legno rivestita in gommapiuma e fibra di poliestere
cuscini in piuma d'oca con inserto in gommapiuma, uniti fra loro e ai braccioli, da cerniere
la forma ergonomica dei braccioli è studiata per un corretto appoggio delle braccia
l'aggiunta di poggiareni in piuma d'oca conferisce maggior comfort alla seduta

Rivestimento
tessuto sfoderabile per ogni singolo componente
engineering nel taglio e nella confezione sono stati necessari per conformare il tessuto alle linee arrotondate, caratteristica fondamentale di questa seduta, e per limitare al minimo le interruzioni del pattern

Armchair and Sofa

Seat
the seat has a wooden support composition is foamed rubber with a higher density central section for extra comfort

Backrest
wooden structure covered in foam and polyester fibre, cushions filled with goose feathers connected
together with zips; the shape of the armrests has been conceived ergonomically to properly support
the arms and the addition of goose feather back support cushions further enhances the comfort

Upholstery
removable fabric. Machine cutting and assembly is needed to shape the fabric to the curves of the seat and to achieve regularity of the pattern
