Il MoodBoard Project di Cassina è una selezione di colori, finiture e rivestimenti ideata per creare set accoglienti e coordinati e implementarli a livello globale, creando una immagine di marca distintiva e unica.

Questa immagine di un cielo nuvoloso, attraversato dai lampi di un temporale, rappresenta perfettamente l'insieme di colori lividi, caldi e maschili pensati da Cassina.

Gli obiettivi fondamentali di questo documento sono:

- supportare il processo di campionatura, offrendo combinazioni coordinate di prodotti.
- suggerire proposte complete al consumatore finale.

I mondi colore di MoodBoard sono sette, partendo da un nucleo base di tre colori neutri ed eleganti, di facile commerciabilità (grigio, beige, marrone) a cui si aggiungono quattro proposte con colori più vivaci e intensi, in cui i divani hanno principalmente rivestimenti neutri. In ogni ambiente è comunque presente un mix bilanciato di colori, in linea con l'immagine primaria di Cassina.

Per ognuno di sette colori abbiamo previsto una selezione di finiture e rivestimenti altovendenti e trasversali alla gamma dei prodotti Cassina: un supporto a combinarli e declinarli in modo semplice durante la creazione dei layout.

Le proposte infine si basano su "set standard" formati da combinazioni in cui il divano, protagonista, è presentato e ambientato con cuscini, poltrone, chaise longue, tavolini, tappeti, librerie e mobili contenitori, tutti ad alta commerciabilità. Per avere ambienti ancora più completi, è possibile combinare questi set living con i tavoli e le sedie di maggior successo della collezione Cassina

Cassina's MoodBoard Project is a carefully studied selection of colors, finishes and upholsteries designed to create welcoming and coordinated sets and implement them globally, creating a distinctive and unique brand image.

This image of a cloudy sky, crossed by the flashes of a thunderstorm, perfectly represents the set of bruised, warm and masculine colors conceived by Cassina.

The fundamental objectives of this document are:

- support the sampling process, offering coordinated product combinations.
- suggest complete proposals to the final consumer.

The color worlds of MoodBoard are seven, starting from a basic core of three neutral and elegant colors, easy to market (gray, beige, brown) to which are added four proposals with more vivid and intense colors, in which the sofas have mainly neutral upholsteries.

In every environment there is however a balanced mix of colors, in line with the primary image of Cassina.

For each of the seven colors we have provided a selection of finishes and upholsteries broad and transversal to the range of Cassina products: a support to combine and declinate them in a simple way when creating layouts.

Finally, the proposals are based on "standard sets" made up of combinations in which the sofa, protagonist, is presented and set with cushions, armchairs, chaise longues, coffee tables, rugs, bookcases and storage units, all with high marketability.

For even more complete environments, you can combine these living sets with the most successful tables and chairs in the Cassina collection.

# I 7 Colori Cassina

## / The 7 Cassina Colors

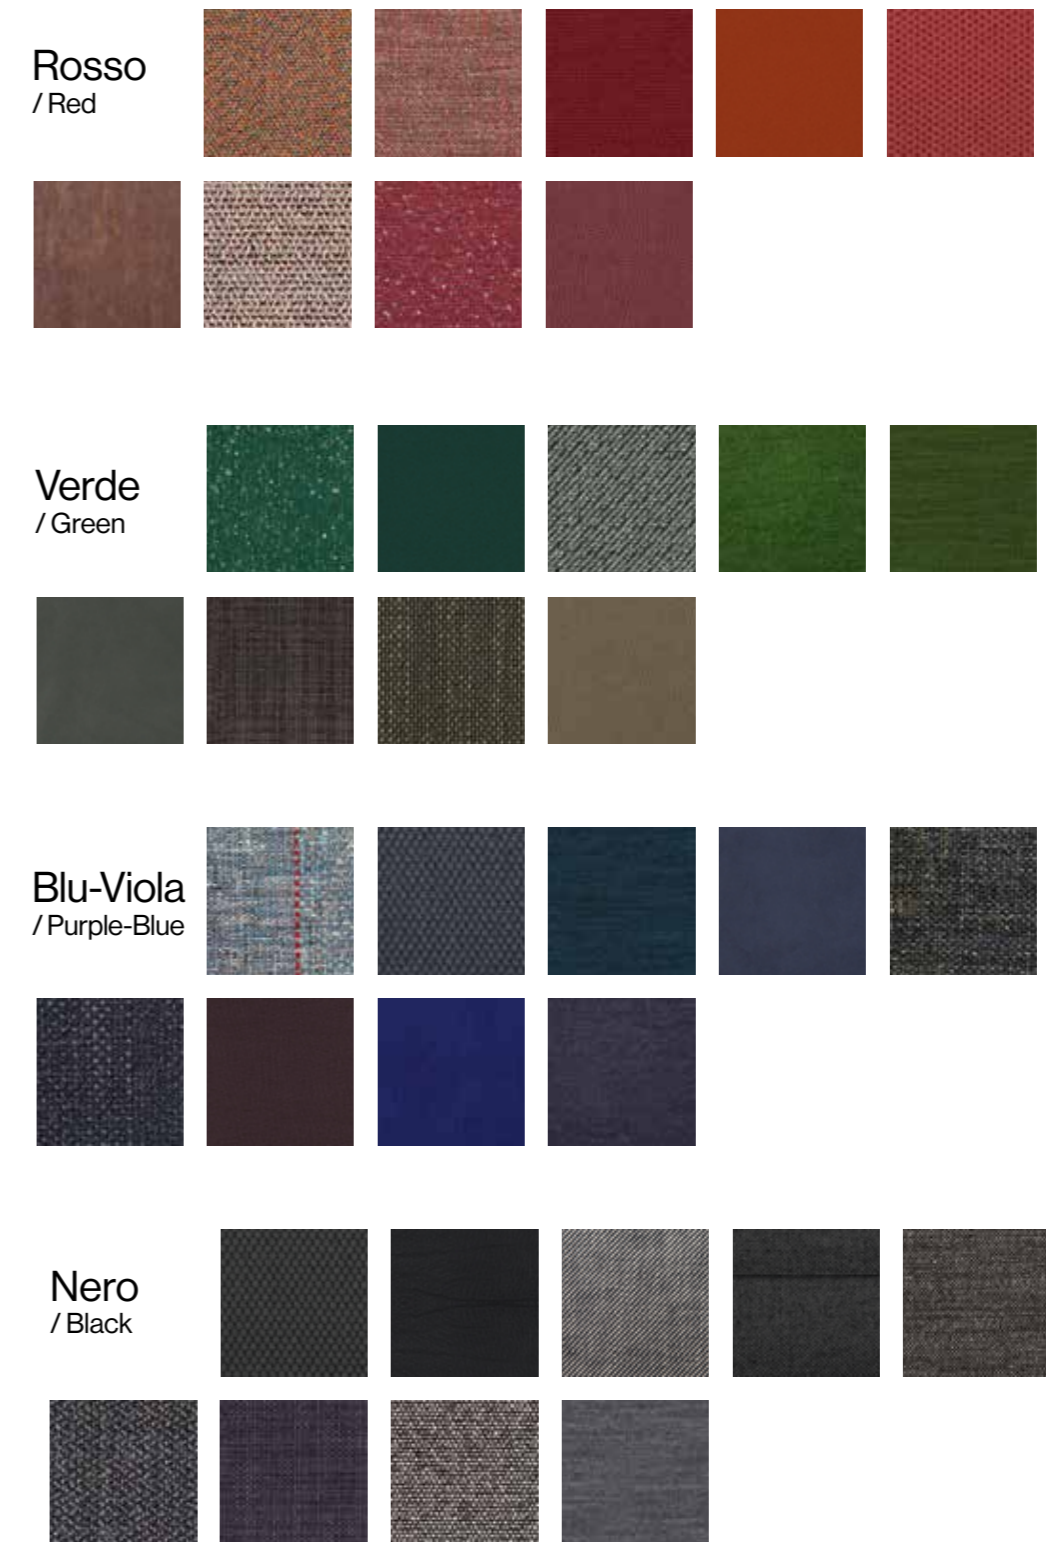

I sette colori offrono infinite possibilità di combinazione. E' previsto un nucleo composto da colori più neutri, #1 Beige, #2 Grigio e #3 Marrone, che rappresentano l'immagine calda e accogliente e più commerciale di Cassina.

I colori #4 Rosso, #5 Verde, #6 Blu-Viola e #7 Nero consentono invece di creare ambienti con nuance più vivide e intense. I rivestimenti, le finiture e i tappeti collegati consentono di caratterizzare i set in modo sempre diverso ma coerente con il MoodBoard Cassina.

The seven colors offer endless combinations. A core is made up of more neutral colors, # 1 Beige, # 2 Gray and # 3 Brown, which represent the warm, welcoming and more commercial image of Cassina.

The colors # 4 Red, # 5 Green, # 6 Blue-Violet and # 7 Black, on the other hand, allow to create environments with more vivid and intense nuances. The upholsteries, the finishes and the connected carpets allow to characterize the sets in a way that is always different but coherent with the Cassina MoodBoard.

# #1 Beige

I Prodotti presenti nel MoodBoard Project sono una selezione di articoli altovendenti e di novità della collezione Cassina. Sono inclusi i divani più importanti e riconoscibili della Collezione oltre a poltrone, complementi, tappeti, mobili, tavoli, sedie e accessori per completare al meglio gli ambienti Cassina. Tutti questi prodotti sono stati declinati nei sette colori del MoodBoard, in modo da creare un'ampia rosa di combinazioni.

The products presented in the MoodBoard Project are a selection of the best selling products and the latest News of the Cassina collection. This includes the most important and recognizable sofas as well as armchairs, low tables, rugs, tables, chairs and accessories to complete at best the Cassina settings. All these products have been declined in the seven colors of the MoodBoard, in order to create a large choice of proposals.

# Proposte Moodboard Project

## / Moodboard Project proposals

05.

Le proposte MoodBoard Project per i divani e i tavoli best sellers sono la concreta applicazione dei sette Colori MoodBoard alla collezione Cassina Divani e tavoli, da cui parte la progettazione dei set, sono presentati in combinazione rispettivamente con i prodotti che completano i salotti e con le sedie.

Ogni prodotto presenta in prima battuta i colori "nucleo" e successivamente i colori più vividi.

Anche in questo secondo gruppo di colori, comunque, abbiamo privilegiato per i divani rivestimenti neutri, caldi e accoglienti.

Il risultato sono oltre 100 suggerimenti di combinazioni, a supporto dell'esposizione instore e della vendita al consumatore finale.

The MoodBoard Project proposals for sofas and best sellers tables are the concrete application of the seven MoodBoard Colors to the Cassina collection

Sofas and tables, from which the design of the sets starts, are presented in combination with the products that complete the living rooms and the chairs respectively.

Each product presents in the first instance the "core" colors and then the most vivid colors.

Even in this second group of colors, however, we have favored neutral, warm and welcoming upholstery for the sofas.

The result is more than 100 suggestions of combinations, to support the exhibition instore and the sale to final consumer.
