Agape proposals

I programmi Agape compongono un grande progetto per rendere più affascinante, originale e funzionale l'ambiente bagno, in sintonia con ogni scenario architettonico, stile di vita, spazio e budget a disposizione.

Non è sempre facile orientarsi fra innumerevoli possibilità offerte dalla gamma Agape. Per questo abbiamo creato un catalogo che presenta alcune combinazioni significative, utilizzabili come spunti da cui partire per creare delle soluzioni ulteriormente personalizzate.

Il catalogo Proposals è suddiviso in tre sezioni:

1. **il programma Evoluzione**, pensato per offrire facilità di progettazione e flessibilità dimensionale
2. **il programma Flat XL**, un sistema versatile grazie alla sua modularità
3. **il programma Lato**, ideale per soluzioni personalizzate, grazie al grande numero di materiali e finiture disponibili.

All'inizio del catalogo un indice consente di trovare facilmente l'esempio di soluzione più adatto a ciascuna esigenza specifica in base a:

- la lunghezza del piano
- la tipologia di lavabo.

Ogni proposta è corredata da:

- un'immagine ambientata, che esemplifica un possibile risultato ottenibile con questa soluzione;
- un prospetto e un'assonometria dei vari elementi;
- un preventivo di costo;
- una selezione di possibili abbinamenti con vasche e accessori, sempre della gamma Agape.

Una proposta completa, per creare soluzioni ed emozioni ogni volta diverse.

Agape has devised a comprehensive project to enhance the appeal, originality and functions of the bathroom. It can be adapted to suit any architecture, lifestyle, space or budget.

It is not always easy to navigate the countless possibilities offered by the Agape range. To overcome this we have created a catalogue featuring some product combinations, to be used as inspiration for new and customized solutions.

The Proposals catalogue is divided into three sections:

1. **the Evolution programme**, designed to be simple and flexible to design
2. **the Flat XL programme**, an extremely versatile system versatile thanks to its modular components
3. **the Lato programme**, perfect for customized solutions, thanks to the large number of materials and finishes available.

The index at the beginning of the catalogue makes it easy to find the kind of solution you are looking for starting from:

- the length of countertop
- the type of washbasin.

Each proposal comes complete with:

- illustration in context to give you an idea of the result;
- an elevation and an axonometry of the various components;
- a cost estimate;
- a selection of possible combinations with bathtubs and accessories from the Agape range.

A complete proposal that will enable you to create new ideas and emotions each time.
