L'ORIGINE

VILLA LONDRA

England, a villa in the park: a very balanced architecture where spectacular high rooms blend with ceiling decorations and rigorous spatial symmetries. The furnishings conform to the style of the villa and tell the character of those who live in there showing their tastes and needs. In the kitchen room classicism and purism get together: the counter has a great ornamental impact and it is the main protagonist.

L'ORIGINE

LOFT SHANGAI

The stylish and cosmopolitan atmosphere of every room has been created through a compositional rigor closely related to a careful and balanced design, which produces no ostentation.

L'ORIGINE

VILLA LAGO DI COMO

The spaces have been planned in a contemporary style by placing the rooms on various levels in order to create a dynamic visual and spatial continuity between inside and outside. All the furnishings were custom designed following these concepts and this unique ambiance: wall-systems and wall panels were perfectly consistent and proportioned to the size of each room. A flexibility of furnishing that has emphasized the structured and elegant architecture of the house, increasing the perceived value.
