IL MOSAICO È ANZITUTTO MATERIA SPEZZATA E RIDOTTA A PICCOLI ELEMENTI CHE CREANO SUPERFICI SENZA SOLUZIONE DI CONTINUITÀ, IN CUI IL GIUNTO, MOLTIPLICATO E INCORPORATO NEL PATTERN, NON DIVIDE MA LEGA TRA LORO LE TESSERE. LE TINTE UNITE SONO COMPOSTE DA DIFFERENTI MATERIE O DA UNA STESSA MATERIA LAVORATA DIVERSAMENTE. OGNI MATERIA RISPONDE IN MODO DIVERSO ALLA LUCE, A SECONDA DI OPACITÀ, LUCENTEZZA, MATERICITÀ, TEXTURE ECC. LE TINTE UNITE SONO SUDDIVISE NELLE 10 FAMIGLIE COLORE.

Mosaic is fundamental matter broken down into small pieces which create seamless surfaces, in which the multiple joints are incorporated into the pattern and unite rather than dividing the chips. Solid colors consist of different materials or the same material finished in different ways. Each material responds different to the light, depending on its matt or glossy finish, tactile surface, texture, etc. Solid colors subdivide into the 10 color families.

p-saico 10x30x6 mm

P-saico è un progetto elaborato da Studio Irvine partendo dal concetto di materia e modularità di Sticks.

P-Saico è composto da frammenti di bacchette 10x30 mm - di spessore 6 mm - montati in maniera irregolare su rete in fibra di vetro di per ottenere dei formati modulari di dimensioni 315x320 mm. La composizione dei moduli e la stuccatura danno origine a un seminato rivisitato in chiave contemporanea*.

P-saico is a project developed by Studio Irvine based on the material and modularity concept of Sticks.

It consists of 10x30 mm stick fragments – 6 mm thick – mounted on fiber glass mesh in irregular patterns to create 315x320 mm modules. The way the modules are composed and the grouting generate a contemporary version of Venetian Seminato.*

quilt 94x94x8 mm

Quilt nasce da un quadrato 94x94 mm in grès porcellanato a tutta massa inciso in maniera da separare visivamente, una volta stuccato, uno spicchio dal resto della materia.

Quilt si sviluppa su tre toni base, ognuno disponibile nella variante liscia e nella variante strutturata (RAW). La gamma si arricchisce con alcune varianti in cui lo spicchio assume colorazioni diverse.

I quadrati possono essere posati in maniera regolare per creare una sequenza di figure geometriche, o in maniera irregolare, ricordando un seminato contemporaneo.

Nella posa irregolare suggeriamo di utilizzare al 50% Quilt a tinta unita e al 50% la versione con spicchi colorati*. Quilt è adatto all'uso a pavimento e rivestimento per interni e esterni e per immersione (piscine).

Quilt is produced as a 94x94 mm square of through-body porcelain stoneware scored so that a segment can be broken off from the rest of the material after grouting.

Quilt is available in three base shades, and each colour is available in smooth and structured (raw) variants. The range includes variants in which the detachable segment is in different colours.

The squares can be installed in a regular pattern to create a sequence of geometrical figures, or unevenly in a contemporary form of Venetian Seminato.

In random layouts, we recommend use of 50% whole-colour Quilt and 50% coloured segment version. Quilt is suitable for indoor and outdoor floor, wall coverings and pavings and immersion (swimming pools).*

Il prodotto deve essere posato mantenendo una fuga di 3 mm tra i moduli con i distanziali forniti all'interno della confezione.

Mosaico+ suggerisce la stuccatura con stucco cementizio o con stucco epossidico a grana grossa a seconda della destinazione d'uso del materiale. Per ulteriori informazioni si prega di consultare l'ufficio tecnico.

The product must be installed with a 3 mm joint between modules, with the aid of the spacers supplied in the pack.

Mosaico in vetro cattedrale ottenuto da lastre di grandi dimensioni – di spessore variabile di 2-3 mm – create attraverso la trafilazione di vetro e smalti. Diamond è un mosaico fatto di tessere tagliate a mano con strumenti a punta diamantata e successivamente montate su rete in fibra di vetro a formare fogli di dimensioni 365x210 mm. Il taglio della tessera, del tutto artigianale, produce spigoli netti e vivi. Diamond può essere colorato con tinte piene e piatte o avere una superficie venata*.

Vitreous mosaic of stained-glass, obtained from voluminous slabs – 2-3 mm thick – made through a process of extrusion of glass and enamels. Diamond is a mosaic made of chips that are hand-cut with a diamond cut accessory and then mounted on glass fibre mesh to form sheets of 365x210 mm. The cutting process is handmade and produces sharp edges. Diamond can display a full color or a veined effect.*

*

Per il taglio del vetro cattedrale utilizzare un diamante da vetro (il materiale si romperà facilmente in corrispondenza dell'incisione). In alternativa usare un disco diamantato a corona continua. Per ambienti dove ci possa essere il contatto diretto con il mosaico (doccia, piscine, bagni turchi...) è consigliabile arrotondare gli spigoli del mosaico attraverso un processo di ricottura del vetro. Per informazioni contattare l'ufficio tecnico.

To cut the stained glass, please use a diamond: the glass will easily break in correspondence of the incision. Alternatively, please use a continuous crown diamond disc. For those environments that imply a direct contact with the product - such as showers, swimming pools and spas – we suggest smoothing the edges of the mosaic through an annealing process. For further information please contact the technical office.

Mist è un mosaico modulare in vetro float con finitura della superficie matt, caratterizzato da due dimensioni diverse di fuga e composto da tessere rettangolari di tre misure. Queste – di spessore 4 mm – sono montate su rete in fibra di vetro a formare fogli di 300x320 mm, che si assemblano fra loro attraverso un minuzioso incastro di tessere per ottenere una superficie senza soluzione di continuità*.

Mist is a modular mosaic which features two different dimensions of joint. It's made of float glass rectangular chips in three different sizes with matt finishing, mounted on glass fiber mesh to form a sheet of 300x320 mm. The sheets are engineered to be assembled through a thorough interlocking system of chips that results in an unending pattern.*

La forma volumetrica a parallelepipedo delle tessere, non perfettamente ortogonale rispetto alla superficie, può comportare, a posa ultimata, riflessi e/o ombreggiature variabili a seconda delle condizioni di luce. Per la forma stessa della tessera, della sua lucidità e della sua profondità, sono da considerarsi caratteristiche tecniche ed estetiche del prodotto. Per Vetrina Matt e tutte le Cromie composte esclusivamente da Vetrina Matt, Mosaico+ suggerisce la stuccatura con stucco cementizio. The chips' parallelepiped three-dimensional form is not perfectly right-angled; thus, in some lighting conditions, bright reflections and/or areas of shade may occur after laying. Considering the chip's shape, shine and depth, these features are intrinsic to the product's technical and appearance characteristics. For Vetrina Matt and Cromie entirely composed of Vetrina Matt, we suggest a polymer modified cementitious grout. If the destination of use implies an epoxy grout, please contact us. *

La forma volumetrica a parallelepipedo delle tessere, non perfettamente ortogonale rispetto alla superficie, può comportare a posa ultimata a seconda delle condizioni di luce, riflessi e/o ombreggiature che per la forma stessa della tessera, della sua lucidità e della sua profondità, sono da considerarsi caratteristiche tecniche ed estetiche del prodotto.

The chips' parallelepiped three-dimensional form is not perfectly right-angled; thus, in some lighting conditions, bright reflections and/or areas of shade may occur after laying. Considering the chip's shape, shine and depth, these features are intrinsic to the product's technical and appearance characteristics.

concerto 15x15x4 mm

Mosaico di vetro fuso composto da smalto generalmente opaco, fatto da tessere quadrate non regolari - di spessore 4 mm circa in formato 15x15 mm - montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm e 295x295 mm, in cui le tessere sono distanziate di 1,4 mm* circa. Caratteristiche del prodotto sono: la non regolarità della superficie della tessera e il colore non omogeneo.

Fused glass mosaic consisting of generally matte glaze, comprising chips - 4 mm thick with an irregular square shape and in size 15x15 mm - mounted on glass fibre mesh to form a sheet of 327x327 mm and 295x295 mm in which the chips are about 1.4 mm apart. Concerto characteristics are the uneven chip surface and a non-homogeneous color.*

* Questa distanza può variare a causa dell'irregolarità della tessera.

This gap may vary due to the chip's irregular shape.

Mosaico in vetro e oro composto da tessere quadrate non perfettamente ortogonali - di spessore 4 mm nei formati 10x10, 15x15 e 20x20 mm - alle quali è applicata una foglia d'oro a 24K (sottile lamina d'oro) protetta da una cartella di vetro. Le tessere sono montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate rispettivamente di 0,9, 1,4 e 1,9 mm circa.

La collezione Doro è disponibile in 2 finiture chiamate "A Pavimento" ☒ e "A Rivestimento" ☒*.

Glass and gold mosaic consisting of square chips - 4 mm thick, not perfectly rightangled and in sizes 10x10, 15x15 and 20x20 mm - with a 24-carat gold foil (thin film of gold) applied, protected by a layer of glass.

The chips are mounted on glass fibre mesh to form a sheet of 327x327 mm in which the chips are about 0.9, 1.4 and 1.9 mm apart respectively.

The Doro collection is available in 2 finishes, "A Pavimento" ☒ and "A Rivestimento" ☒.*

*

Nella finitura "A Pavimento" la foglia d'oro posta sul fondo, al di sotto della cartella di vetro, dona al mosaico un particolare effetto di profondità. Nella finitura "A Rivestimento" la foglia d'oro rimane in superficie per un risultato più compatto e materico.

In the "A Pavimento" finish, the gold foil applied to the back, underneath the glass layer, gives the mosaic a striking effect of depth. In the "A Rivestimento" finish, the gold foil is left on the surface, for a more compact, tactile look.

Mosaico di vetro fuso costituito da tessere di vetro mescolate con graniglia di smalto e/o "avventurina" (pietra dura semi preziosa). * Aurore è composto da tessere quadrate e bisellate - di spessore 4 mm nel formato 20x20 mm - montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate di circa 1,9 mm.

*Fused glass mosaic consisting of chips made of glass mixed with enamel granules and/or avventurina (a semiprecious gemstone) *.* Aurore is a mosaic comprising bevelled square chips - 4 mm thick and in sizes 20x20 mm - mounted on glass fibre mesh to form a sheet of 327x327 mm in which the chips are about 1.9 mm apart.

* L'utilizzo dell'avventurina consente la formazione di particolari striature dai riflessi ramati e opalescenti, particolarmente brillanti, che conferiscono preziosità al prodotto.

The use of avventurina implies the forming of bright coppery and opalescent glints that create a unique, shining surface.

* In questo prodotto è ben evidente la lavorazione, detta sabbatura, che dona al mosaico la tradizionale caratteristica "a punti". La superficie risulta leggermente porosa.

This product derives its distinctive appearance from the sandblasting procedure, which gives the mosaic the traditional "pitted" look. The chips surface is slightly porous.

Mosaico di vetro sinterizzato* riciclato al 95%, composto da tessere quadrate non regolari e leggermente arrotondate, convesse e di spessore 6 mm circa nel formato 50x50 mm, montate su rete in fibra di vetro a formare un foglio di dimensioni 318x318 mm in cui le tessere sono distanziate di 3,6 mm circa.

Mosaic made from 95% recycled sintered glass, comprising irregular, slightly rounded square chips 6 mm thick, in size 50x50 mm, mounted on glass fibre mesh to form a sheet of 318x318 mm, in which the chips are about 3.6 mm apart.*

*

La sinterizzazione, ottenuta con la macinazione e la compressione del vetro, permette di ottenere un prodotto ad elevata resistenza meccanica e chimica particolarmente indicato nei pavimenti anche ad elevato traffico. Le dimensioni e lo spessore delle tessere possono subire delle variazioni così come leggeri avvallamenti. Piccolissime intrusioni di colore, non ortogonalità delle tessere e conseguenti fughe non rettilinee sono considerate caratteristiche intrinseche del prodotto.

Nella versione Grip, antiscivolo, sono possibili significative variazioni di tono dovute al particolare processo produttivo legato alla finitura superficiale.

**Sintering is a process in which the glass is ground and compressed; it provides a product of excellent mechanical strength and chemical resistance, ideal for floors even with heavy traffic. The chips' size and thickness may vary, and slight depressions in the surface are also possible. Very small color intrusions, non-right angles in chips and the resulting crooked joints are intrinsic characteristics of this product. In the anti-slip Grip version, significant variations in shade are possible due to the special production processes required to obtain the surface finish.*

Natural mother-of-pearl mosaic consisting of right-angled square chips - 1.8 - 2 mm thick and in sizes 10x10 mm, 15x15 mm and 20x20 mm sizes. This product is recommended for wall covering only. Chips are mounted on glass fibre mesh (Abalone 10x10 excluded) to form a sheet of 300x300 mm, without joints between the chips so that no grout is required.*

nacre irregular

Abalone nel formato 10x10 mm è disponibile solo in foglio rigido, in quanto la tessera che si ricava dalla conchiglia è leggermente più sottile e tende a rompersi facilmente. Per questo si utilizza un supporto rigido sul retro per proteggere il prodotto da eventuali rotture.

Abalone in size 10x10 mm is only available in rigid sheets, since the chips made from this shell are slightly thinner and tend to be brittle. A rigid backing is therefore used to protect the product from the risk of breakage.

Si consiglia di utilizzare collanti e stucchi epossidici in quanto la madreperla naturale è estremamente attaccabile da sostanze acide, per cui l'utilizzo di collanti cementizi renderebbe impossibile l'operazione di pulizia, generalmente effettuata con solventi a base acida. Particolare attenzione va quindi prestata nella cura e manutenzione del prodotto: essendo un mosaico naturale e non trattato, al fine di mantenere la superficie lucida, vanno utilizzati solo detersivi neutri, evitando le sostanze acide. La madreperla è composta quasi al 100% da carbonato di calcio e quindi viene sconsigliata l'applicazione in piscine e zone Wellness per la presenza di un'alta percentuale di cloro, così come non va esposta ai raggi del sole perché nel tempo potrebbe perdere in brillantezza e lucentezza. Il mosaico in madreperla è composto da elementi naturali, pertanto variazioni di colore e tonalità sono da considerarsi prerogativa del prodotto.

Epoxy adhesives and grouts should be used, since natural mother-of-pearl is extremely vulnerable to attack by acids; this means that the normal post-installation cleaning procedure with acid solvents, necessary with cement-based adhesives, is not possible. Special care must therefore be taken over care and maintenance: since this mosaic is natural and untreated, to keep the surface shiny only neutral cleaning products must be used, and never acids. Mother-of-pearl consists almost entirely of calcium carbonate, and therefore it should not be used in pools or spa areas where large amounts of chlorine are present; also, it should not be exposed to direct sunlight, as it could fade and lose its shine over time. Mother-of-pearl mosaic consists of natural materials, so variations in color and shade are one of this product's distinctive features.

Mosaic Atelier raccoglie alcuni esempi della produzione più ricercata e prestigiosa di Mosaico+, realizzata secondo tecniche di lavorazione diverse che affondano le loro radici nella cultura e nella tradizione italiana del mosaico, ricca di esperienza e manualità artigianale. Lontano dall'essere semplici composizioni in mosaico, queste opere assumono rilevanza per l'unicità del pensiero e del gesto artistico che le ha generate.

Il mosaico artistico trova posto nell'universo Mosaico+ collocandosi nella punta più elevata della personalizzazione e del prodotto di prestigio. Affiancare tessere, assemblare frammenti, selezionare materiali, adattare la giusta forma al giusto spazio con sapiente esperienza, sono le azioni che rendono unico ed irripetibile il progetto che viene realizzato.

Un mosaico artistico non può che essere fatto a mano. Il valore del made in Italy si esprime nella qualità dei materiali, nelle professionalità dei maestri mosaicisti e nella passione per la perfezione estetica che arricchisce ulteriormente ogni opera di Mosaico+.

Mosaic Atelier brings together examples of the most exquisite, luxurious Mosaico+ products, created with a variety of techniques rooted in the Italian mosaic culture and tradition, rich in experience and the priceless skills of master craftsmen. Definitely not mere mosaic compositions, these impressive works express unique creative thought and artistic flair.

Within the Mosaico+ universe, artistic mosaic offers the highest level of customisation and prestige. Juxtaposing chips, assembling fragments, selecting materials, adapting an ideal shape to a specific space with the utmost expertise: these are the actions that make each project created unique and unrepeatable. An artistic mosaic can only be made by hand. Genuine Italian identity is expressed through quality materials, in the professionalism of master mosaicists and passion for aesthetic perfection that bestow added value on every Mosaico+ work.

I pannelli di Decor possono essere realizzati anche in dimensioni personalizzate.

IL MOSAICO IN VETRO PER LE SUE PARTICOLARI PROPRIETÀ DI RESISTENZA E INASSORBENZA È RIVESTIMENTO IDEALE PER SPAZI A CONTATTO CON L'ACQUA: BAGNI, SPA, PISCINE.

LE TESSERE DI PICCOLO FORMATO RIVESTONO CON FACILITÀ SUPERFICI CURVE ADDOLCENDO GLI ELEMENTI ARCHITETTONICI A CONTATTO CON L'ACQUA.

TUTTI I DECORI "POOL'S MOSAIC" SONO PROGETTATI E REALIZZATI IN ITALIA.

Since they are tough and non-absorbent, glass mosaics are the ideal covering for areas in contact with water: bathrooms, spas and pools.

As the chips are small they are easily able to cover curved surfaces, beautifying architectural features that come into contact with water.

Pool's mosaic decors are developed and crafted in Italy.

Il colore dell'acqua che rifrange il mosaico va dall'azzurro, all'effetto specchio, passando per il turchese, il verde e i blu. La scelta del mosaico più idoneo ad una piscina parte quindi dal cromatismo finale che si vuole ottenere.

The color of the water that reflects the mosaic ranges from bright blue to a mirror effect by way of turquoise, green and dark blue. The choice of the best mosaic for a pool therefore starts from the final color required.

I pannelli di Decor possono essere realizzati anche in dimensioni personalizzate.

Decor panels can also be produced in customised sizes.

AS 100 + AS LATEX

adesivo cementizio bianco

AS 100 è un adesivo cementizio (C) migliorato (2), resistente allo scivolamento (T) e con tempo aperto allungato (E) di classe C2TE da utilizzare per l'incollaggio a parete ed a pavimento, in interni ed esterni, di mosaici vetrosi, ceramici e di marmo montati su carta o su rete. AS 100 è una polvere particolarmente fine e bianca composta da cemento, inerti selezionati, resine sintetiche ed additivi speciali. AS LATEX è un liquido molto fluido di colore bianco rosaceo, costituito da una dispersione acquosa di un polimero estremamente elastico che, miscelato con adesivi cementizi ne migliora, ad idratazione completata, l'aderenza a tutti i supporti, la deformabilità e l'impermeabilità.

white cementitious adhesive

AS 100 is an improved (2) slip resistant (T) cementitious adhesive (C) with extended open time (E) classified as C2TE suitable for interior and exterior floor and wall bonding of mesh-backed or paper-faced glass, ceramic and marble mosaic installation.

condizioni generali di fornitura

1. PAGAMENTI

I pagamenti dovranno avvenire esclusivamente presso il domicilio del creditore. I termini e le modalità di pagamento indicate nella conferma d'ordine e/o nella fattura sono da intendersi perentori ed essenziali. Pertanto, in caso di mancato pagamento nel termine assegnato, l'Acquirente dovrà intendersi costituito in mora a tutti gli effetti di legge e saranno dovuti interessi convenzionali per il ritardo nella misura annua prevista dal D. Lgs. n°231/02. Al termine di ogni anno solare Mosaico+ S.r.l. sarà autorizzata ad emettere nota di addebito per gli eventuali interessi fino ad allora maturati. Qualora fosse convenuta per ogni fattura una dilazione di pagamento in rate successive ovvero più fatture con scadenze successive, il mancato pagamento di anche una sola delle scadenze comporterà l'automatica decadenza dell'Acquirente dal beneficio del termine concesso e pertanto questi dovrà provvedere all'immediato pagamento di tutta la merce ricevuta.

I costi per effettuare il pagamento (per emissione Ri.Ba., fissato bollato delle cambiali, presentazione effetti ecc.) saranno a carico dell'Acquirente salvo diverso accordo scritto. La venditrice potrà sospendere l'esecuzione della prestazione se le condizioni patrimoniali dell'Acquirente saranno divenute tali da pregiudicare il conseguimento della controprestazione.

Si intendono casi di evidente pregiudizio, a titolo esemplificativo e non esaustivo, l'apertura di procedure concorsuali, la messa in liquidazione dell'azienda, l'esistenza di protesti, pignoramenti, iscrizione di ipoteche giudiziarie e volontarie, revoca degli affidamenti bancari, insolvenze.

2. IMBALLO

Il materiale è consegnato con imballo standard idoneo al trasporto. Diverso imballo verrà addebitato al costo e dovrà essere concordato per iscritto.

3. CONSEGNA E TRASPORTO

La consegna verrà effettuata franco fabbrica ai sensi dell'art. 1510 c.c. e la merce dovrà essere là ritirata dall'Acquirente.

Qualora, su richiesta dell'Acquirente, la venditrice provvedesse a inviare la merce a mezzo di un proprio veicolo ovvero di un vettore o di uno spedizioniere, la merce si intenderà comunque consegnata franco stabilimento e viaggerà a rischio e pericolo dell'Acquirente. Mosaico+ S.r.l. dovrà intendersi autorizzata a concludere il contratto con vettori o spedizionieri nell'interesse dell'Acquirente e con oneri e spese a carico di quest'ultimo. Pertanto in tutte le ipotesi sopra descritte, qualora si verificassero furti e/o danni alla merce trasportata, la venditrice non ne sarà ritenuta responsabile. I prezzi indicati nei cataloghi si intendono franco stabilimento di Sassuolo (MO), I.V.A. esclusa.

I termini di consegna indicati nella proposta e/o nella conferma d'ordine dovranno intendersi indicativi e non tassativi. Ogni diverso accordo, per essere efficace, dovrà risultare per iscritto.

4. GARANZIA – RESPONSABILITÀ CONTRATTUALE

Il materiale consegnato è garantito per eventuali vizi o mancanze di qualità per mesi 12 dal momento della consegna se correttamente conservato e

correttamente applicato.

Il mosaico in legno e i mix contenenti tessere in legno devono essere tassativamente stuccati con stucco epossidico maturato almeno 7 (sette) giorni prima di essere a contatto con l'acqua, e non possono essere posati su supporti o superfici in immersione frequente o costante (p.es.: piatto doccia, vasca da bagno ecc). Il materiale, conservato negli imballi originali e integri, deve essere protetto dalla pioggia o dall'eccessiva umidità sia durante il trasporto che nello stoccaggio in cantiere o in magazzino.

In caso di denuncia di vizi dei prodotti entro i termini di cui al successivo art. 4bis, la venditrice sarà tenuta esclusivamente a sostituire la merce difettosa nel minor tempo possibile e non risponderà per alcun motivo di danni di qualsiasi natura, direttamente o indirettamente subiti dall'Acquirente o da terzi.

Mosaico+ S.r.l. non è responsabile per vizi e/o difetti che dovessero essere imputabili a negligenza nella conservazione dei prodotti, alle operazioni di posa, a carenze progettuali o a fattori non riconducibili ai prodotti forniti.

4 Bis. CONTESTAZIONI

Ai sensi dell'art. 1495 c.c., eventuali vizi, a pena di decadenza, dovranno essere formalmente denunciati a mezzo raccomandata a.r. o PEC entro 8 (otto) giorni dalla consegna del materiale ovvero, nel caso di vizi occulti, dalla scoperta.

La segnalazione di reclamo per eventuali danni arrecati alla merce durante il trasporto, sia a mezzo vettore o spedizioniere che mittente, dovrà essere effettuata al momento della consegna e indicata sul documento di trasporto e controfirmata dal conducente del mezzo.

In ogni caso, i materiali dovranno essere controllati prima della posa in opera e non si accetteranno contestazioni su materiale già installato. In particolare, Mosaico+ S.r.l. non risponderà per ritardi di consegna dell'opera da parte dell'Acquirente o per costi relativi al montaggio ed allo smontaggio di merce difettosa.

Qualora le procedure sopra esposte non siano espletate nei modi e nei termini stabiliti, il reclamo non sarà accettato e l'Acquirente decadrà dal diritto alla garanzia.

Ai sensi dell'art. 1462 c.c. l'Acquirente non potrà opporre alcuna eccezione al fine di evitare o ritardare l'adempimento alle proprie obbligazioni.

5. TOLLERANZE

Mosaico+ S.r.l. specifica espressamente che il colore delle tessere di mosaico non è mai uniforme e che il riferimento ai campionari è puramente indicativo e suscettibile di variazioni nell'ambito delle tolleranze di fabbricazione del colore stesso, così come indicative e suscettibili di variazione sono le percentuali dei colori nelle cromie.

La presenza di toni diversi mescolati costituisce una peculiare caratteristica del mosaico. Mosaico+ S.r.l. precisa che fra le diverse partite di materiale sono possibili variazioni di tonalità rientranti nei limiti di tolleranza della produzione, così come piccole inclusioni e/o scheggiature in alcune tessere.

Le dimensioni delle tessere sono indicative delle misure nominali al netto delle tolleranze di produ-

zione. Altresì dicasi per le fughe varianti in funzione della dimensione reale della tessera. Alcune collezioni per la loro specificità assumono, con la irregolarità della tessera, la valenza di mosaico artistico.

Pertanto l'Acquirente dichiara di essere a conoscenza che i prodotti possano avere variazioni di tonalità e/o di altre caratteristiche sopra menzionate, oltre a eventuali microporosità, e di accettare tali caratteristiche.

Mosaico+ S.r.l. non risponde di variazioni di colori/toni del mosaico per ordini formulati o eseguiti in tempi diversi.

6. RESI

Non si accettano resi se non espressamente autorizzati per iscritto dalla direzione di Mosaico+ S.r.l. Il documento di reso dovrà contenere i riferimenti del documento di trasporto emesso al momento della consegna.

I materiali resi dovranno essere contenuti negli imballi originali, integri e spediti in porto franco a rischio dell'Acquirente, se non diversamente concordato.

Al ricevimento della merce, e successivamente alla verifica della stessa, Mosaico+ S.r.l. emetterà relativa nota di accredito pari al 90% del valore della merce.

6 Bis. PRODOTTI PERSONALIZZATI

Per prodotti personalizzati e/o realizzati su specifiche fornite dall'Acquirente, non saranno accettati resi né variazioni in diminuzione. Pertanto, verrà addebitato all'Acquirente il relativo costo a prescindere dal loro ritiro.

7. PROPRIETÀ

L'Acquirente acquisterà la proprietà del materiale con la consegna della merce ai sensi dell'art. 3 che precede. Se la merce sarà consegnata a mezzo vettore, l'effetto traslativo della proprietà si verificherà in ogni caso con la consegna al vettore o allo spedizioniere.

8. LEGGE APPLICABILE E FORO COMPETENTE

Le presenti Condizioni Generali sono regolate dalla legge italiana.

Per tutte le controversie concernenti l'interpretazione e/o l'esecuzione delle presenti condizioni e dei contratti di compravendita, ivi comprese quelle relative alla loro validità, sarà competente in via esclusiva il Foro di Milano con esclusione di ogni altra competenza o giurisdizione alternativa o concorrente.

general conditions of sale

1. PAYMENTS

Payments shall only be made to the creditor's domicile. The payment terms and procedures stated in the order confirmation and/or invoice are essential and binding. Therefore, in the event of failure to pay within the stated term, the Purchase shall be considered in default to all legal intents and purposes and interest shall be due on the overdue amount at the annual rate specified by Italian Decree Law n. 231/02. At the end of each calendar year Mosaico+ S.r.l. shall be authorized to issue a debit note for any interest accrued up to that date. In the event that payment by instalments is agreed for each invoice, or several invoices with due dates in sequence are issued, failure to pay even just one instalment or invoice shall automatically lead to forfeiture on the Purchaser's part of all right to make delayed payments, and therefore it shall be obliged to make immediate payment for all the goods received.

All costs relating to the payment (issue of bank payment orders, stamp duty on bills of exchange, presentation of bills, etc.) shall be for the Purchaser's account unless otherwise agreed. The Vendor shall be permitted to cease the supply of goods in the event that the Purchaser's financial situation is such as to cast doubt on its ability to meet its financial obligations.

Circumstances indicating inability to meet financial obligations include, by way of example and without limitation, the opening of bankruptcy or insolvency procedures, placing of the company in liquidation, protested bills, attachments, the registration of mortgages by court order and voluntary mortgages, the cancellation of bank credit lines and insolvency.

2. PACKAGING

Material shall be delivered with standard packaging suitable for the means of transport. Any other form of packaging shall be charged for at cost and shall be agreed in writing.

3. DELIVERY AND TRANSPORT

Goods shall be delivered ex-works pursuant to art. 1510 of the Italian Civil code and the Purchaser shall collect them at the Vendor's premises. In the event that, on the Purchaser's request, the Vendor sends the goods using its own vehicle or through a carrier or forwarding agent, the goods shall still be considered delivered ex-works and shall travel at the Purchaser's risk. Mosaico+ S.r.l. shall be authorised to stipulate a contract with carriers or forwarding agents on the Purchaser's behalf, with costs and expenses for the latter's account.

Therefore, in all the hypotheses described above, in the event of theft of and/or damage to the transported goods, the Vendor shall not be held responsible. The prices stated in the catalogues are ex-works Sassuolo (Modena, Italy), not including V.A.T.

The delivery times stated in the order proposal and/or confirmation of order are guideline and not binding. Any different agreement must be confirmed in writing.

4. WARRANTY-CONTRACTUAL RESPONSIBILITY

The material delivered is guaranteed against defects or failure to meet quality standards for

12 months from the moment of delivery if properly stored and correctly installed.

Wood mosaics and mixes which contain wooden chips must only be grouted with epoxy grout left to cure for at least 7 (seven) days before contact with water, and cannot be laid on substrates or surfaces which are often or always wet (e.g.: shower trays, bathtubs, etc.). The material, in its intact original packaging, must be protected from rain or excessive damp during both transport and storage on the installation site or in the warehouse.

In the event of complaints concerning defects of the products made within the terms specified in art. 4bis below, the Vendor shall be obliged solely to replace the faulty goods in the shortest possible time, and shall not be liable, for any reason, for damage of any kind incurred directly or indirectly by the Purchaser or by third parties.

Mosaico + S.r.l. shall not be held responsible for faults and/or defects caused by negligence in the storage of products, by the installation operations, by failings in the architectural design or by any factors unrelated to the products supplied.

4 Bis. COMPLAINTS

Pursuant to art. 1495 of the Italian Civil Code, any faults shall be formally reported by registered letter with return receipt or certified email within 8 (eight) days after delivery of the material, or in the case of hidden defects, after their discovery. Complaints for damage to goods in transit, whether by carrier, forwarding agent or the sender, shall be made at the moment of delivery and reported on the transport document, with the driver's signature in confirmation.

In all cases, materials must be inspected before installation, and no complaints shall be accepted with regard to material already installed. Mosaico + S.r.l. shall not be responsible for delays in consignment of the completed works by the Purchaser, or costs relating to the installation and/or removal of defective goods.

In the event that the procedures set out above are not completed by the stated manners and terms, the complaint shall not be accepted, and the Purchaser shall be deprived of the right of warranty.

Pursuant to art. 1462 of the Italian Civil Code, the Purchaser shall not make complaints for the purposes of avoiding or delaying the fulfilment of its obligations.

5. TOLERANCES

Mosaico+ S.r.l. specifically states that the color of mosaic chips is never uniform and reference to samples is purely guideline and subject to variation within the color's manufacturing tolerance range. The color percentages stated for the various shades are also purely guideline and subject to variation.

The presence of a mixture of different color shades is a distinctive feature of mosaics. Mosaico+ S.r.l. points out that variations of shade, within the tolerance limits for production, are possible between different lots of material, and small inclusions of different materials and/or splintering of some chips are also normal features.

Stated chip sizes refer to nominal dimensions net of production tolerances. The same applies to joint

widths, which vary depending on the actual chip size. In some collections, the irregularity of the chips used is crucial to the artistic value of the mosaic.

Therefore, the Purchaser declares that it is aware that the products may have slight variations in shade and/or other characteristics referred to above, as well as possible microporosity, and accepts these features.

Mosaico + S.r.l. shall not be liable for variations in colors/shades in the event of orders placed or fulfilled at different times.

6. RETURNS

No returns of goods shall be accepted unless specifically authorised in writing by the management of Mosaico+ S.r.l. The return document shall contain the references to the transport document issued on delivery of the goods. Returned materials shall be shipped in their original intact packaging, freight prepaid, at the Purchaser's risk, unless otherwise agreed.

On receipt and subsequent inspection of the goods, the Mosaico + S.r.l. shall issue the relative credit note for 90% of their value.

6 Bis. CUSTOMIZED PRODUCTS

No reductions in quantities or returns will be accepted with regard to customized products and/or products manufactured according to the Purchaser's specifications stated in the order confirmation. Their cost will therefore be charged to the Purchaser's account regardless of whether or not the latter takes delivery of them.

7. PROPERTY RIGHTS

The Purchaser shall acquire ownership of the material on delivery of the goods pursuant to art. 3 above. If the goods are delivered by a carrier, the transfer of ownership shall still occur on consignment to the carrier or forwarding agent.

8. APPLICABLE LAW AND JURISDICTION

These General Conditions are governed by Italian law.

Any dispute arising out or in connection with the validity, interpretation, performance of these conditions and of sales contracts will be submitted to the exclusive jurisdiction of the court of Milan, with exclusion of any alternative or concurrent jurisdiction.

Bei Anzeige von Produktmängeln innerhalb der im nachfolgenden Art. 4 bis aufgeführten Fristen ist der Verkäufer ausschließlich dazu verpflichtet, die fehlerhafte Ware so schnell wie möglich zu ersetzen. Aus keinem Grund übernimmt er die Haftung für direkte oder indirekte Schäden jeglicher Art, die dem Käufer oder Dritten entstehen können.

5. TOLERANZEN

Mosaico+ S.r.l. weist ausdrücklich darauf hin, dass die Farbe der Mosaiksteine niemals einheitlich ist. Die Farbmuster sind Richtangaben. Abweichungen im Rahmen der Herstellungstoleranzen der jeweiligen Farbe sind möglich. Auch die Farbanteile der einzelnen Nuancen sind Richtangaben und können Abweichungen erfahren.

Der Mix mehrerer verschiedener Farbtöne ist als besonderes Merkmal des Mosaiks anzusehen. Mosaico+ S.r.l. präzisiert, dass zwischen den einzelnen Materialpartien Farbtonabweichungen innerhalb der Herstellungstoleranzen sowie kleine Einschlüsse und/oder Splitterungen an einzelnen Mosaiksteinen möglich sind.

Die Abmessungen der Mosaiksteine entsprechen

richtungweisend den Nennmaßen zuzüglich der Herstellungstoleranzen. Das gilt ebenfalls für die Fugen in Abhängigkeit vom Istmaß des Mosaiksteins. Einige Kollektionen nehmen aufgrund ihrer Besonderheit durch die unregelmäßigen Mosaiksteine den Charakter eines künstlerischen Mosaiks an.

Der Käufer erklärt daher in Kenntnis zu sein, dass die Produkte Abweichungen in der Farbe und/oder anderen oben genannten Merkmalen sowie etwaige Mikroporositäten aufweisen können und diese Umstände zu akzeptieren.

Mosaico+ S.r.l. haftet nicht für Farb-/Tonabweichungen von Aufträgen, die zu unterschiedlichen Zeitpunkten erteilt oder abgewickelt werden.

5. TOLÉRANCES

Mosaico+ S.r.l. précise expressément que les tesselles de mosaïque n'ont jamais une couleur uniforme et que les échantillonnages ont un caractère purement indicatif et peuvent subir des variations dans les limites des tolérances de fabrication de la couleur. De même, pour les tonalités, les pourcentages de couleur sont donnés à purement indicatif et ils peuvent subir des variations.

Les différentes tonalités mélangées constituent un trait distinctif de la mosaïque. Mosaico+ S.r.l. précise également que les lots de produits peuvent présenter des variations de tonalités qui restent dans les limites de tolérance de la fabrication, ainsi que des petites inclusions et/ou des ébréchantures sur quelques tesselles.

Les dimensions des tesselles sont indicatives de la valeur nominale après déduction des tolérances

de fabrication. Il en va de même pour les joints qui varient en fonction des dimensions réelles de la tesselle. L'irrégularité des tesselles procure une valeur de mosaïque artistique aux collections qui présentent des caractéristiques particulières.

Par conséquent, l'Acheteur déclare être au courant que les produits peuvent présenter les variations susvisées relatives aux tonalités et/ou aux autres signes distinctifs, ainsi que des microporosités éventuelles, et il déclare accepter ces caractéristiques.

Mosaico+ S.r.l. ne saurait être tenue pour responsable des variations de couleurs/tonalités pour les commandes passées ou préparées à des moments différents.

5. TOLERANCIAS

Mosaico+ S.r.l. especifica explícitamente que el color de las teselas de mosaico nunca es del todo uniforme y que las referencias de los muestrarios son meramente orientativas y susceptibles de variaciones dentro de los márgenes de tolerancia de fabricación de los tintes.

La presencia de tonalidades distintas mezcladas constituye una característica peculiar del mosaico. Mosaico+ S.r.l. precisa que entre las diversas partidas de material pueden darse variaciones de tono, den-

tro de los límites de tolerancia de la producción, así como pequeñas impurezas y/o melladuras en algunas teselas.

Las dimensiones de la teselas se refieren a las medidas nominales sin tener en cuenta desviaciones mínimas por defectos admisibles de fabricación. Lo mismo vale para las juntas, que pueden variar en función de la medida real de la tesela. Con la irregularidad de su tesela, algunas colecciones, por su especificidad, adquieren valor de mosaico artístico.

Por consiguiente el comprador declara saber que los productos pueden presentar variaciones en el tono y/o en otras características, como las mencionadas más arriba, además de posibles microporosidades, y declara asimismo que acepta tales características.

Mosaico+ S.r.l. no responderá por variaciones de color ni tonalidad en relación con pedidos cursados o despachados en períodos diferentes.

общие условия поставки

1. ОПЛАТА

Оплата должна производиться исключительно по адресу кредитора. Сроки и условия оплаты, указанные в подтверждении заказа и/или фактуре, являются окончательными и основными. Поэтому, в случае невыполнения оплаты в указанные сроки по закону считается что Покупатель имеет задолженность, на сумму которой начисляются предусмотренные годовые проценты за задержку платежа в соответствии с Указом №231/02. В конце каждого календарного года компания Mosaico+ S.r.l. будет иметь право выписать дебетовое авизо по накопленным на текущий момент процентам. В случае если по каждой фактуре достигнута договоренность об отсрочке оплаты в последующих взносах или дополнительных фактурах с последующим сроком оплаты, несоблюдение даже одного срока оплаты автоматически ведет к потере права Покупателя на предоставленную отсрочку, и в этом случае Покупатель обязан произвести немедленную оплату всего полученного товара.

Расходы по выполнению платежа (по выписке банковской квитанции, договорной записке по векселям, предъявлению долговых обязательств и т.д.) будут за счет Покупателя, если не предусмотрено иное письменное соглашение. Продавец может приостановить выполнение услуги, если имущественное положение Покупателя становится таковым, что оно может ущемить право на получение платы за выполненную услугу.

В качестве неисчерпывающего перечня примеров приводятся следующие случаи очевидного ущемления права на получение платы: начало конкурсного производства, объявление о несостоятельности предприятия, существование опротестования, наложение ареста на имущество, наличие судебной и добровольной ипотеки, отзыв банковских гарантий, неплатежеспособность.

2. УПАКОВКА

Материал поставляется в стандартной упаковке, пригодной для транспортировки. Иной тип упаковки будет включен в счет и должен быть согласован письменно в подтверждении заказа.

3. ПОСТАВКА И ТРАНСПОРТИРОВКА

Поставка выполняется на условиях франко фабрика в соответствии со статьей 1510 Г.К., и товар должен забираться Покупателем на фабрике. В любом случае, если по заказу Покупателя Продавец обеспечит отправку товара собственным транспортным средством или через транспортное агентство или через экспедитора, товар считается поставленным на условиях франко предприятие и все риски, связанные с транспортировкой, будут за счет Покупателя. Компания Mosaico+ S.r.l. будет считаться уполномоченной на заключение контракта транспортными агентствами или экспедиторами в интересах Покупателя, с возложением на него всех обременений и расходов.

Поэтому, при всех вышеуказанных вариантах, в случае обнаружения краж и/или повреждения перевозимого товара Продавец не считается за это ответственным. Цены, указанные в каталоге, следует понимать как франко предприятие Sassuolo (MO), Н.Д.С. не включен. Сроки поставки, указанные в коммерческом предложении и/или в подтверждении заказа, считаются ориентировочными, а не обязательными. Любое иное соглашение, чтобы оно было действующим, должно быть оформлено в письменном виде.

4. ГАРАНТИЯ - ДОГОВОРНАЯ ОТВЕТСТВЕННОСТЬ

При условии правильного хранения и правильной укладке поставленного материала, на него предоставляется гарантия от возможного брака или дефектов качества сроком на 12 месяцев с момента поставки.

Мозаика из дерева и смеси с элементами из дерева должны обязательно заделываться эпоксидными затирками и выдерживаться не менее 7 (семи) дней перед тем, как вступить в контакт с водой. Кроме того, они не могут укладываться на основы или поверхности, которые часто или постоянно погружаются под воду (напр.: душевой поддон, ванна, и т.д.). Материал, хранящийся в заводской, ненарушенной упаковке, должен быть защищен от дождя или от чрезмерной влаги, как во время перевозки, так и во время хранения на месте выполнения работ или на складе.

В случае поступления заявлений о дефектной продукции в сроки, указанные ниже в ст. 4bis, Продавец обязан лишь только заменить бракованный товар в кратчайшие сроки, и он не несет никакой ответственности за любой ущерб, понесенный Покупателем или третьими лицами прямым или косвенным путем.

Компания Mosaico+ S.r.l. не несет ответственности за брак и/или дефекты, вызванные небрежностью при хранении продукции, работами по укладке, недостатками проекта или другими причинами, не связанными с поставленной продукцией.

4 BIS. РЕКЛАМАЦИИ

В соответствии со ст. 1495 Г.К. о выявленном браке должно быть официально заявлено посредством заказного письма с уведомлением о вручении или сертифицированной электронной почты в течение 8 (восьми) дней с момента поставки материала или, в случаях скрытого брака, с момента его обнаружения, в противном случае гарантия отменяется.

Заявление о рекламации на выявленные повреждения, нанесенные товару во время перевозки транспортом транспортного агентства, экспедитора или отправителя, должно быть оформлено в момент поставки и отмечено в транспортной накладной, подписанной водителем транспортного средства.

В любом случае, материал должен быть проконтролирован перед тем как начать его укладку, жалобы на уже уложенный материал не принимаются. В частности, Mosaico+ S.r.l. не несет ответственности за задержки в сдаче работ со стороны Покупателя или за расходы, вызванные укладкой и демонтажом бракованного материала.

В случае если вышеописанные процедуры не будут проведены согласно установленным методам и срокам, рекламация не будет принята, а Покупатель теряет право на гарантию.

В соответствии со ст. 1462 Г.К. Покупатель не вправе требовать каких-либо исключений с целью избежать или задержать выполнение собственных обязательств.

5. ДОПУСКИ

Компания Mosaico+ S.r.l. обращает внимание на то, что цвет элементов мозаики никогда не однороден, а ссылка на образцы является лишь только приблизительной и зависящей от изменений, которые могут возникнуть во время приготовления красителя. Аналогично, приблизительными и подлежащими изменениям являются проценты отдельных цветов в цветовых смесях.

Наличие различных смешанных друг с другом оттенков является отличительной характеристикой мозаики. Mosaico+ S.r.l. уточняет, что в разных

партиях материала возможны изменения тона, соответствующие предельным производственным допускам, а также могут обнаруживаться небольшие включения и/или сколы некоторых элементов.

Размеры элементов являются номинальными и могут иметь производственные допуски. Размеры швов также являются приблизительными и зависят от реальных размеров элементов мозаики. Ввиду своей специфичности и благодаря неравномерностям элементов некоторые коллекции принимают характер художественной мозаики.

Ввиду вышеописанного, покупатель заявляет о том, что он ознакомлен с тем, что продукция может обладать отличиями тона цвета и/или другими вышеуказанными характеристиками, включая микропористость, и принимает эти особенности.

Mosaico+ S.r.l. не несет ответственности за изменения цветов/тона в заказах, сделанных в разное время.

6. ВОЗВРАТЫ

Возвраты не принимаются, если они письменно не разрешены дирекцией Mosaico+ S.r.l. Документ возврата должен содержать исходные данные транспортной накладной, оформленной в момент поставки.

При отсутствии иных договоренностей материал на возврат должен быть упакован в оригинальную неповрежденную упаковку и отправлен с оплатой перевозки под ответственность Покупателя.

После получения и проверки возвращенного товара Mosaico+ S.r.l. выкупит кредит-ноту, размер которой составит 90% от стоимости товара.

6 BIS. ПЕРСОНАЛИЗИРОВАННАЯ ПРОДУКЦИЯ

Персонализированная продукция и/или изготовленная по предоставленным Покупателем спецификациям, не подлежит возврату, изменениям и уменьшениям заказанных количеств. Поэтому, вне зависимости от вывоза этой продукции или нет, ее оплата будет взиматься с Покупателя в любом случае.

7. ПРАВО СОБСТВЕННОСТИ

Продавец приобретает право собственности на материал в момент поставки материала в соответствии с выше приведенным параграфом 3. Если товар поставляется перевозчиком переход права собственности в любом случае происходит в момент передачи товара перевозчику или экспедитору.

8. ПРИМЕНИМОЕ ЗАКОНОДАТЕЛЬСТВО И КОМПЕТЕНТНЫЙ СУД

Настоящие общие условия регулируются итальянским законодательством.

Любые споры, возникающие в связи с толкованием и/или исполнением настоящих условий и договоров купли-продажи, в том числе и споры, которые связаны с их действительностью, будут переданы на рассмотрение исключительно в суд города Милана, исключая любую другую альтернативную или конкурирующую подсудность.

Con la stampa di questo catalogo abbiamo cercato di avvicinarci il più possibile alla realtà cromatica delle tessere dei mosaici; i campioni stampati hanno tuttavia valore solamente indicativo.

When printing this catalogue, every effort has been made to reproduce the real colors of the mosaic chips; however, printed samples are guideline only.

Beim Druck dieses Katalogs achteten wir auf eine möglichst farbgetreue Wiedergabe der Mosaiksteine. Die gedruckten Muster sind jedoch nur ein Anhaltspunkt zum Original und deshalb unverbindlich.

Nous avons essayé de rapprocher le plus possible de la réalité la couleur des tesselles sur ce catalogue. Néanmoins, les échantillons imprimés sont donnés à titre purement indicatif.

Al imprimir el presente catálogo hemos tratado de reproducir lo más fielmente posible la realidad cromática de las teselas de los mosaicos; las muestras impresas, sin embargo, tienen un valor meramente orientativo.

Во время печати данного каталога мы попытались как можно точнее воспроизвести реальные цвета элементов мозаики. Тем не менее, напечатанные образцы имеют лишь приблизительное значение.
