# LIGHTING COLLECTION

La volontà di VG è quella di partecipare alla creazione di luoghi fortemente caratterizzati, ambienti in cui rifugiarsi per evadere dalla realtà esaltando l'espressione della propria personalità, spazi in cui tornare a respirare e sognare.

Riportare la natura in casa, darle spazio in giardino, costruire una casa colorata e decorata, accostare oggetti luminosi a luci sfolgoranti dal vago sapore orientale, recuperare il contatto con l'autenticità creativa dell'oggetto nato dal pensiero e dalla cultura tipicamente italiana, un'unica commistione di complementi per arredare spazi con un'identità precisa, unica nel suo genere, non moderna, non classica ma in grado di dialogare con ogni stile: questo è l'obiettivo del concept progettuale di VG.

*VG participates in creating very distinct environments, spaces in which you can escape from reality; to seek refuge whilst expressing your personality; spaces in which you can breathe and dream.*

*Bringing nature into your home, giving it space in the garden, building a colourful and decorated house, placing brilliant objects in bright lights with a vaguely Eastern flavour, regaining contact with the authenticity of an object created from a typically Italian concept and culture, a unique mix of furnishings to decorate spaces with a distinct identity, one of a kind, not modern, not classic, yet able to communicate with any style: this is the goal of VG design concept.*

## ANDY

VG si ispira ai misteri del mondo sotterraneo, alle stalattiti di grotte millenarie, la sensazionale espressione del lungo lavoro svolto dall'acqua sulla roccia.

Un universo di merletti e ricami in cui un raggio di luce si riflette su una goccia che sta per cadere dal cristallo, penetrando nel buio della grotta e rompendo la luce in colori primari.

Il lampadario dalle imponenti misure ha una base di acciaio da cui scendono canne di vetro di Murano.

La fonte di illuminazione è LED, bianco o multicolore.

Le misure sono personalizzabili su richiesta del cliente.

La produzione è 100% Made in Italy.

*VG is inspired by the mysteries of the underworld, such as the stalactites in century-old caves, the dramatic expression of the long-standing passage of water on rocks.*

*A universe of lacework and embroidery, in which a beam of light is reflected on a drop about to fall from the crystal, penetrating into the darkness of the cave and breaking light into primary colours.*

*The particularly large chandelier has a steel base from which Murano glass canes descend.*

*The light source is LED, white or multicoloured.*

*Dimensions can be customized on request. Production is 100% "Made in Italy".*
